Summary

I have been interested in computers and programming for several years. I am experienced with object-oriented programming (Java, C++, C#, Vb.NET), COBOL, Web development (JavaScript, PHP, ASP.NET, HTML, CSS, SQL), GUI, and the SDLC framework. I am looking to put my knowledge in programming to the test and apply what I have learned over the years in the workforce.

Education

2019 - Present: Currently enrolled at Durham College for Computer Programmer Analyst

2018: Université de Montréal Level 4 French Explore Program

2013 - 2017: Graduate student of Ajax High School (Grade 12)

2013 - Present: Strong ability using Microsoft Word, Excel, PowerPoint, Internet to conduct research, computer hardware and components, Object-Oriented Programming (Java, C++, C#, Vb.NET), COBOL data input/output with manipulation and formatting, Web Development (JavaScript, HTML, CSS [Bootstrap, Font Awesome], PHP, ASP.NET, SQL) Bash and shell scripting.

2005 - Present: Fluent in French (High School Bilingual Certificate; fluent in English and French)
